Now is the time for last good-byes
Our final impressions
Of how we tried
Seventy-five

The year we've been waiting on
We've made our mark
We stood up-
Fell down-
Started again.

With the passing of time,
We've earned our respect
We learned strength
And peace of mind.

But we've done
All we can do
Now it's time
For a Bolder crew

So take head
Seventy-six
They need your help
It's all up to you

**All
dogs
are not
created
equal...**

Dogs have differing nutritional requirements. Those requirements vary with each life cycle and life style. That's why SCIENCE DIET® canine foods are available to you in FOUR specific, precisely balanced formulas:

GROWTH	for puppies
LACTATION	for pregnant and lactating bitches
MAINTENANCE	for the healthy adult dog
MAXIMUM STRESS	for the highly stressed or working dog

Each Science Diet® food combines high digestibility with maximum caloric density. This results in less food intake and a substantial reduction in stool volume. Mixing or supplementation should be avoided.
